

FIRST NATIONS MEDIA COMMUNITY ARCHIVES

Mukurtu Pilot

Use of zDigitise and zHighPriority Categories

zDigitise

Use: For tagging analog (physical media) that you have planned for digitisation.

See FNMA resources:

- Digitisation Priorities at https://firstnationsmedia.org.au/sites/default/files/files/Archiving_Resources/Digitisation/FNMA-Digitisation-PRIORITISING.pdf
- Planning for Digitisation at https://firstnationsmedia.org.au/sites/default/files/files/Archiving_Resources/Digitisation/0%20FNMA-Planning%20for%20Digitisation.pdf

zHighPriority

Use: For tagging either or both analog or digital media that has high priority for removal or salvage in a disaster.

See FNMA resource on Disaster Management at

https://firstnationsmedia.org.au/sites/default/files/files/Archiving_Resources/Planning/FNMA-Disaster-Planning.pdf.

Locating media tagged with the zDigitise and zHighPriority categories

- Login as editor or approver
- Click the name of your archive
- On the right hand side panel locate the Categories block and tick the appropriate category.
- The list of items matching the category will be shown.
- At this point in the pilot you will need to contact the Mukurtu admin if you need a csv file of the matched items.
